PROFESSIONAL SUMMARY

Computer Science and Engineering (Data Science) undergraduate with an 8.91 CGPA and hands-on experience in Machine Learning, Full-Stack Development, RAG, and Telugu ASR. Open Source AI Intern at Swecha, contributing to Viswam AI applications, semantic search, and Telugu speech technologies. Club Lead of Yuga Spark Hackathon Club with experience organizing college-level hackathons and technical activities.

EDUCATION

B.Tech in Computer Science and Engineering (Data Science) 2023 - 2027
Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal | JNTU-A CGPA : 8.91

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, HTML, CSS

Frontend: React.js, Tailwind CSS

Backend & APIs: Flask, REST APIs

Databases: MySQL, SQLite, PostgreSQL

AI/ML: Scikit-learn, Retrieval-Augmented Generation, Semantic Search, Automatic Speech Recognition

Tools: Git, GitHub, Streamlit, Hugging Face Transformers, Jupyter Notebook, VS Code, Google Colab

INTERNSHIP EXPERIENCE

Open Source AI Intern | Swecha (Viswam AI) — Summer of AI Program May 2026 – Present

- Resolved bugs and implemented features across Viswam AI applications, including Corpus and Intern Tracker, contributing to open-source software development.
- Built a Retrieval-Augmented Generation (RAG) system for Telugu book question answering using semantic retrieval.
- Fine-tuned the SWECHA GONTHUKA ASR model using 4,911 Telugu speech recordings from multiple speakers, with 16 kHz WAV audio and Hugging Face Transformers— [Hugging Face Model](#).

PROJECTS

GreenPulse - Electricity Consumption Analysis and Prediction | Tech Stack: Python, Flask, scikit-learn, SQLite, JavaScript, HTML, CSS | [View on GitHub](#)

- Built a data pipeline for household energy consumption analysis and implemented machine learning models (Random Forest, XGBoost, Linear Regression) for power usage forecasting and trend analysis.

SQL Spark - Interactive SQL Hackathon Platform | Tech Stack: React.js, JavaScript, Python, PostgreSQL | [View on Github](#) | [Live Demo](#)

- Developed a full-stack SQL hackathon platform, real-time query evaluation, automated scoring, and isolated execution environments for concurrent multi-user participation.

CERTIFICATIONS

Automation Business Analyst Associate - UiPath January 2026

Agentforce Specialist – Salesforce December 2025

ACHIEVEMENTS

Club Lead, Yuga Spark Hackathon Club — Organized and managed college-level hackathons.
Secured 2nd Place in the Data Drive Interview Preparation Contest at the college level.
